

TRAVISION

Travelers Quartet

The game for people,
who like traveling

Norbert Dähne / Uwe Michler

What is a travelers quartet?

- A card game similar to the popular automobile quartet
- A traditional card game for families, kids and all people who love to travel
- A way to learn more about travel destinations and attractions

32 playing cards for 8 target regions with 4 destinations each

There are possible ways to play:

1 – drawing cards to collect quartets

2 – requesting for features to collect cards

Card Structure

- Card number = quartet letter + number between 1 to 4
- Destination resp. city oder target region
- Picture of an attraction of the destination
- Characteristics
 - Expansion of the target area in square kilometers
 - Number of inhabitants of the city or the target area
 - Distance between home airport and destination airport
 - Average number of days without rain per year in the destination
- Additional information
 - Content of picture
 - Country of the destination
 - Airport code of the destination airport
- Quartet destinations that are missing for the actual playing card
